Hi Andrew – I am going through the SOT abstracts now – and I have a confession to make...

Ex. 5 Deliberative Process (DP)

I went back to our e-mail trail and see now that Margaret's exact words were: "Lynn said to initially send this out to both of you for review".

Given the state of the abstract, I am thinking that Margaret sent it to you and I – initially – **before** sending to Lynn. Is that true? Do you know if Lynn read it?

In the meantime - can you take a look at my comments (attached) and see what you think?

I ran it by Sam whose reaction was similar to mine.

If you are not **very** familiar with the SAB report and the PAH doc, I don't think you would get what was done or how the science was advanced.

Let me know what you think and we can talk before deciding how to proceed/share.

Hi Gina,

Just wanted to follow up with you re: the SOT abstract situation for TPB. Below is a list of folks who have submitted abstracts through clearance that I have cleared at my level:

1. Jason Fritz
2. Keith Salazar

Margaret Pratt also will submit the abstract she e-mailed us for review before she left town (below). I will e-mail her to make sure she gets it into STICS tomorrow.

Finally, Channa Keshava sent me an abstract for review. He has not yet put it into STICS, but it is a repeat of an abstract he submitted last year with the naphthalene and ethylbenzene AMs and Lynn. I have attached the Word file to this e-mail. I have informed him that he needs to put it in STICS ASAP.

Best regards,
A.

Fine by me.
This e-mail can be considered division level clearance.
Need to follow up in STICS.
Thanks!

Andrew and Gina,

Attached is an abstract for submission to SOT 2016. Lynn said to initially send this out to both of you for review. Once I receive a final OK, I will send it to SRC for their review and will prepare to upload it into STICS or otherwise direct it as instructed.

Again, please note that today is my last day in the office until October 1, however, if needed, I will keep tabs on this while I'm away to make sure it keeps moving.

Thanks!
Margaret
